

**PLEASE READ!!!!!!** You were required to do two (2) programs prior to the school year. One was about 1.5 hours and the other was 15-20 minutes. The ADE program is the 15-20 minute program and the instructions are below.

If you have any questions, please email [ade@tcu.edu](mailto:ade@tcu.edu) as this is the fastest way to communicate with us.

## What is Alcohol e-CheckUp ToGo?

The Alcohol e-CheckUpToGo is an interactive web survey that allows college and university students to enter information about their drinking patterns and receive feedback about their use of alcohol.

The assessment takes about 10 minutes to complete, is self-guided, and requires no face-to-face contact time with a counselor or administrator.

## What does it do?

When you access the Alcohol e-CheckUpToGo, you are prompted to enter information about yourself. In addition to demographic information, it will ask you to enter information about your drinking habits, family history, and to complete the World Health Organization's AUDIT.

After all information has been entered, you submit the form. The information you entered is then validated and processed.

The Alcohol e-CheckUpToGo calculates a number of variables and compares your responses to national and TCU norms. Then, your personalized feedback is displayed in an easy-to-read format.

Please review this information and watch the videos that will help explain some of the terms and how the results relate to you. It will help give you information that is personalized to you and your drinking habits, academic and personal goals.
